

STRENGTH ■
Our products improve the functionality and stability of construction materials

BEAUTY ■
We enhance the surface of buildings, making them more attractive both inside and out side

SAFETY ■
We help to make structures safe, thereby protecting those who use them

VALUE PROTECTION ■
We increase the durability and life span of buildings.

ENERGY CONSERVATION ■
With innovative technologies we help to save energy and protect

EFFICIENCY ■
we make construction more economical

OUR SERVICES

Water proofing (polymer, HPP / EPDM membranes, brick bat coba, crystallization)
Vaccuum De watered concrete VDF flooring
EPOXY flooring
Injections & grouting
Heavy duty floors
Concrete cutting
Roof sealing etc.
Pest Control

We introduce M/s Best Solutions the contractors for

Kent Construction
Haritha Homes
Kaizen Builders
Indraneelam Builders
Devamatha Church
Sapthavarna Builders
Kalyan Silks
Kalyan developers
Vishraam Builders
Satheesh Associates

BEST SOLUTIONS

Thaliyaparambil Building, Bazar Road,
Pudukad, Thrissur, Kerala 680301

an ultimate
solution for **waterproofing...**

We introduce M/s Best solution as leading civil contractor performing engineering works, Note only as a civil contracts, we have a branded our names is the industry (as an innovative idea, water proofing has wider scope for construction industry) By specialization in the field of water proofing industrial repairs epoxy, VDC floor and heavy duty flooring, injections grouting etc. We have a good will within the builders & developers. We are proud to say that we have successfully completed hundreds of jobs for clients in all part of India .This firm is managed by a highly experienced team of engi neers having abundant know ledge in the field of operations.

MYK SCHOMBURG

MYK Schomburg unique and cutting edge technology waterproofing systems which address all the aspects of waterproofing right from the basement to the terrace of a building, swimming pools, water bodies, complex industrial buildings etc.

Products based on cementitious as well as bituminous, addresses the complete needs of waterproofing in civil construction.

All products have a proven track record in India as well as international markets

FOSROC

FOSROC is one of the world's major manufactures and makers of construction and mining chemicals. they are also the pioneers in manufacturing repair, rehabilitations & protective chemicals! of concrete structure. The company has operations in more than 28 countries and exports to 100 others .One of fosrocs key strength is board products range which spans new constructions requirement as well as more specialized concrete repair and rehabilitation products with assured quality of proven track record fosroc products are highly reliable for concrete repairs concrete repairs.

SIKA

Sika A.G, located in baar, Switzerland, is a globally active specialty chemicals company. Sika supplies the building and construction industry as well as manufacturing industries (automotive, bus, truck, rail, alternative energies, building components) sika is leader in processing materials used in sealing, bonding, damping, reinforcing and protecting load-bearing structures.

DETAILS OF PRODUCTS AND SERVICE

Vacuum de watered concrete (VDC) flooring

Laying floor concrete through a 4 step mechanized process to enhance the compressive strength & abrasive resistance and to avoid a plaster layer on a floor concrete a plaster layer on a floor concrete

Structural repairs

Repair, rehabilitation and protective maintenance of contract structures, including the diagnosis of the root case of the damage, apply a proven repair methodology & protect the structure from resistance and top avoid a plaster layer on a floor concrete

Water Proofing

Arresting water leakage through various systems (viz. Crystallization, Nano technology & Brick bat cob) and chemicals (viz, polymer membranes, bituminous pads , Epoxy/ Bitumen blends) depending on the intensity of leakages & site conditions

Epoxy Flooring

A new face of industrial flooring, the concept combines compressive strength, abrasive resistance & aesthetics to formulate this seamless floor

Heavy duty flooring

Modified version of vacuum dewatered floors by the usage of floor hardness to equip the floor to absorb frequent fork lift / heavy object movements, vibration of heavy motor & machinery.

Injection & grouting

Pressure injections & grouting is done using cementitious/ PU/Epoxy/ Acrylate grouts with the help of electrical and mechanical pumas having required PSI in order to reinstate and avoids crack inside the structure
